

Dear School Council Chair

We are all aware that society is thinking healthier.

What is your school doing to promote a healthy school community?

Finally a vending machine and service that serves only “healthy approved products”

Finally a vending machine and service that serves only “healthy approved products”

HealthyVendCanada is exclusively committed to supplying vending services and products approved by the Ministry of Health, Ministry of Education and Health Check.

What does this mean to you? By being part of theHVC movement, your school will be delivering products that young people should be consuming as part of a *healthy* lifestyle.

You can generate much needed revenues for programs that extend the curriculum and support a healthy school community.

Why should your school get involved?

- **Parents will know their children have healthy products to purchase at your school.**
- **Your school will have a revenue source that is created through healthy choices**
- **Your school will be able to support programs that are not supported through governmental monies**
- Students and athletes and young people will gain through buying healthy products
- Society will gain by ensuring our future society is eating healthier

How can your school get involved?

Healthiest Revenue Order products and stock the machine yourself

- Healthy Revenues** a) use your existing vendor to order products and stock the machine
b) approach HealthyVendCanada to provide a full service

We all gain by promoting “healthy products” available through HealthyVendCanada.
